WELCOME

SMMUG Members & Guests

Monday night's meeting was jam packed with iMovie, iPhoto, and video editing information and we will continue with a follow up — by Gerald Davenport — at the June meeting on the 14th — second Monday.

Jim did a great job with the tutorial even though he got interrupted by a few hecklers — namely me — but he handled it very well and hopes that everyone followed along and learned something.

Topics of discussion and the flow of the meeting.

1. Gerald's Welcome to all

- Vegas trip for NAB: 3D was the big thing and 99% of it was using Final Cut Pro.
- His stay at the ARIA was very nice — his son's name if you did not know and his Movie production company name as well [Aria Pictures](#) — it was a very nice stay and I recommend it.
- Been working on a **Questionnaire** that asks simple questions about you and your Daily Mac Using Life just so we know how to service and entertain everyone.
- I would like to have a photo and video contest — two separate things or one, doesn't matter — that will begin now and end in August — this gives you two months to take pictures and video of what ever you wish and assemble it using iMovie or iPhoto. *Powerpoint and Keynote are not allowed.* We want to see what you have learned with our tutorials for iPhoto and iMovie.
If interested, send an email to smmug@sierramousetrap.org stating so
Anyone have an idea for prizes?

2. [iMovie](#) — and [iPhoto](#) — [Tutorial and Demo](#):
